IMPORTANT INFORMATION

Vaccines

This is a reminder to employees and retirees that coverage for vaccines under the CAAT Extended Health Care plans is as follows:

The plans will cover 85% of the cost of vaccines which,

- by law, are only available with a prescription,
 - are prescribed by a doctor or a dentist and
 - are dispensed by a pharmacist, regional health or travel clinic.
-
- The exceptions remain Vaccines for Hepatitis B and Influenza, which do not legally require a prescription but are eligible under the CAAT Plans.
 - Because the list of eligible vaccines is always changing, it is strongly recommended that you contact Sun Life, through their Call Centre, to find out which vaccines would be eligible under your plan. This information is continually monitored by Sun Life to ensure that it remains current. The Call Centre may be reached at 1-800-361-6212 or 416-753-4300 or by e-mail at askus@sunlife.com.
 - Be aware that while all vaccines must be obtained with a doctor's prescription, vaccines that do not meet the eligibility criteria described above will **NOT** be covered under the plan.

Please contact your college benefits administrator if you require further clarification or assistance in this regard.
